

# INNO-EXOMA<sup>®</sup> EXO-SKIN

Exosome-like cosmetic regenerative complex

INNOAESTHETICS

# THE ULTIMATE EXOSOME-BASED SOLUTION

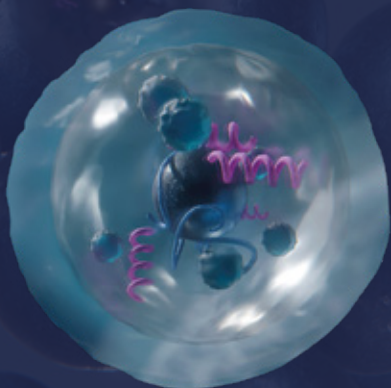

INNOAESTHETICS presents INNO-EXOMA® EXO-SKIN,  
an intense Exosome-based regenerative complex.

Thanks to its new **NARBEX™** biotechnology  
(Non-Animal Regenerative Bioengineering Exosome),  
INNOAESTHETICS laboratory replicates the active protein part  
of a biological Exosome.

## Breakthrough Technology

With **NARBEX™**, our crosslinking peptide-based biotechnology, we  
have created synthetic exosomes. They emulate the signaling  
biological qualities and capabilities of human  
mesenchymal cell-derived exosomes, not only matching their  
properties, but also enhancing them.

## INNOAESTHETICS cell signaling messenger

- 4 Amino Acids (Collagen production)
- 4 Amino Acids (Tissue Repair)
- 3 Amino Acids (Antioxidant Action)
- 5 Peptides (Biochemical Mediators)
- 2 Glycosaminoglicans (HA)
- Mannitol (Free Radical Scavenger)

INNOAESTHETICS  
EXOSOME-LIKE MOLECULE

# INNO-EXOMA® EXO-SKIN

INNO-EXOMA® EXO-SKIN is the only solution composed of a high concentration of exosome-like molecules that establish intercellular communication bridges, in addition to restoring essential skin tissue elements, generating a potent regenerative action.

1 vial with lyophilized product  
1 ampoule with saline solution

## PROTOCOL

3 sessions at 21-day intervals.  
Repeat this cycle every 6 months.

**1<sup>st</sup> Session**

21 DAYS

**2<sup>nd</sup> Session**

21 DAYS

**3<sup>rd</sup> Session**

# INTEGRAL SOLUTION

## Clinically Proven Long-Lasting Results

96% enhanced moisture

84% wrinkle reduction

92% firmer skin

88% even skin tone

82% less imperfections

# GUARANTEE OF QUALITY

Extensive experience  
in aesthetic medicine

Development and manufacture  
in our own laboratory

GMP Certificated company

Pure synthetic ingredients

Ethic and safe formula
